The model OXYCLOG is a clog for the operation room with an adjustable strap to guarantee a perfect fit. The anatomic shaped foot bed gives optimal support.

This shoe easily meets every requirement of the OR. This clog can be chemically or UV sterilized and is autoclavable. The shoe is also machine washable at 90°C or 194°F.

The slip resistant outsole provides a good grip both on wet and dry surfaces. The closed top is to protect the foot, but lateral vents take care of the needed ventilation.

Oxyclog

CE standard
CE EN 20347 certified.

Autoclavable
Till 135° C or 275°F.

Washable at 90°C or
194°F

Chemical and UV
sterilizable

Shock absorbing
The construction of the heel
makes it very shock absorbing.

Thermoplastic elastomer

The shoe is made of TPE. This is why the shoe
remains flexible and can be sterilised on high
temperatures without any deformation.

Weight: 270 gr

The average weight of the shoe is 9.52
ounces or 270 grams.

Anti-static ESD

The shoe has a plug that provides
dissipation of static electricity to be
conform with the ESD standard.

Slip resistant SRA

The rubber outsole provides
excellent grip, both on wet and dry
floors and complies with the SRA
standard.

Recommended for
